

SWOT Analysis of Nephrology Nursing in Israel

An initiative of the Israeli Nephrology Nurses Association (INNA) to use the SWOT Analysis as a tool for:
 ♦ Developing Human Resources ♦ Improving the quality care of the Nephrology Patients

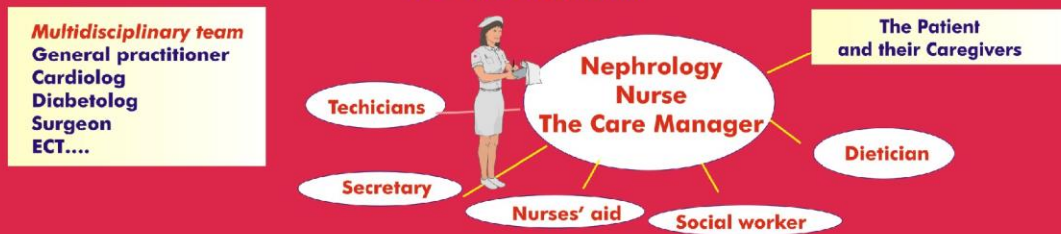

I. Romach¹RN MA, Z. Gavish² RN MA, I. Rothchild³ RN BSN, I. Yager⁴ RN BSN, T. Tchyu⁵ RN BSN

¹HD Unit, Tel Aviv Medical Center, ²Head Nurse of Nephrology Dep. , Rambam Medical Center

³HD Unit, Meir Hospital, Kfar Saba, ⁴Head of Dialysis Unit, Nephromor, Kiriya-Yam,

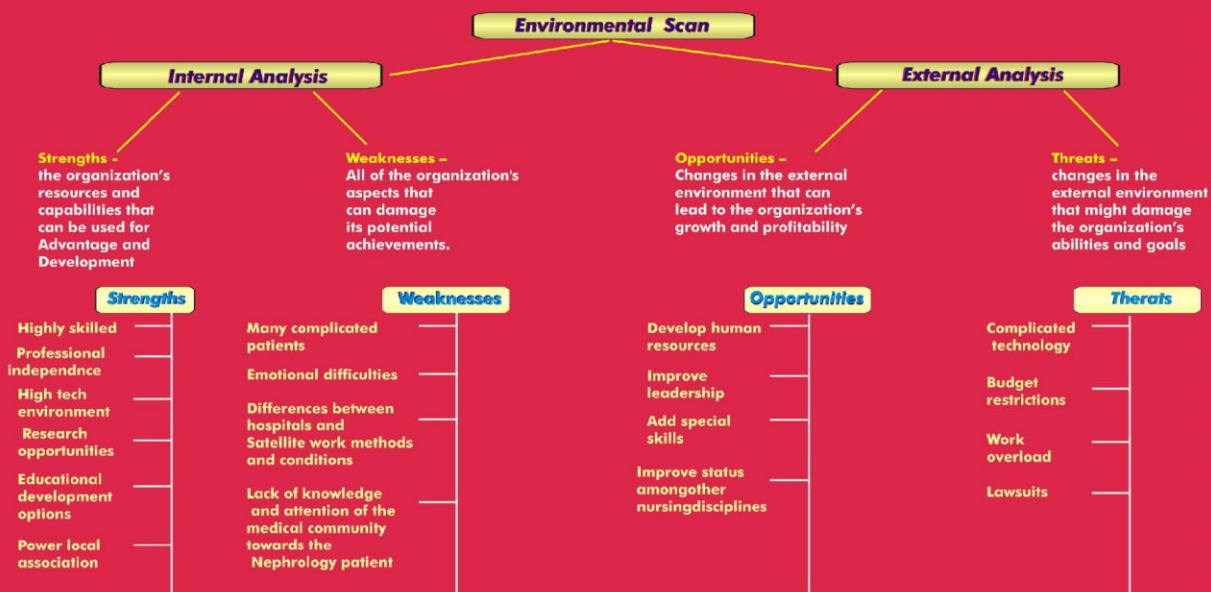

⁵Dialysis Unit, Beilinson Hospital, Petach Tikva, Israel

The Nephrology Team

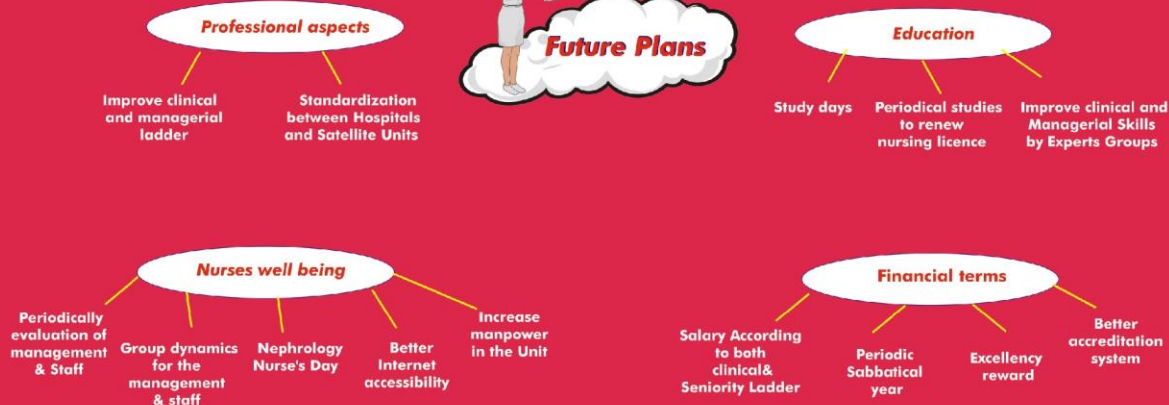

SWOT Analysis:

A Managerial tool for analysis and strategic planning of organizations. It scans the internal and external environment of the organization as shown in the following framework:

Future Plans

Conclusions:

Empowerment of human resources is our best tool to improve treatment. This can be done within: each unit, the health providers, the Ministry of Health, Local Association, Website, Journal etc.
